Description:

To Whom It May Concern: Please, we need help!

This is an emotionally resonant adventure story, a page-turning delight, with a social importance. The premise compelled me from the get-go. It is a superbly paced story with interesting tensions within and between characters, and there is an emotional and physical urgency that compels the action throughout. Polonskys visceral language allowed me to feel the characters experiences deeply and guided me fluidly through landscapes both external and interior. As a former teacher, I see this book as an excellent choice for a classroom unit in a variety of disciplines, with many points of access for further investigation--child labor, grief, social action, courage, relationships, and the power of story. I was eager to share my enthusiasm for Polonskys first book, Gracefully Grayson, and I feel that way yet again with Threads.
